## Claims Procedure

If you need to make a claim against your Fire policy you will need to provide the following information in full.

- 1) A fully completed Damage Declaration form signed by an independent representative of the organiser of the event or test. (An original copy of the incident report from the venue supported by the entry list and results sheet is also acceptable)
- 2) A completed claim form giving the driver and vehicle details together with details of your chosen repairer.
- 3) Clear photographs of the damage, prior to any repair work. We prefer digital images, which can be sent by E Mail, but we will accept good quality normal format photographs. Polaroid or similar are **not** acceptable.
- 4) A fully priced estimate, including parts should be provided as soon as possible (We expect you to obtain any discounts available and to pass these onto the insurer).
- 5) No repairs should commence without our authority. In the case of single seaters requiring trackside repairs, the insured must have in place an immediate repair agreement. We will not pay for trackside repairs without this agreement being in place. All trackside repairs will be on a parts only basis as the labour cannot be of a specialist nature in these circumstances.
- 6) The policies specifically exclude all consumables. These include among other things the following:- Tyres, All Fluids, All oils, All friction materials (Including Carbon Fibre and Ceramic friction components), Fire extinguisher recharges, Advertising and sponsor supplied graphics, All recovery and transportation charges, Fuel.
- 7) We cannot entertain any claim on any policy for which the premium has not been received.
- 8) We will not entertain any claim that has not been notified to us in line with the terms of the policy.

Please ensure that you understand your policy and the terms and conditions attached to it.

We offer a speedy claims service in return for your co-operation in providing full and accurate claims information.

We make no apologies for delayed claims where information is incomplete, missing or inaccurate.

**ALL INCIDENTS MUST BE NOTIFIED IN WRITING WITHIN 48 HRS**
